

2023 Upcoming: NSHC-OEH Solid Waste Training

NSHC-OEH Presenting 3 Regional Solid Waste Trainings in 2023:

- 1. Operations** - To learn fundamentals of maintaining a landfill and protecting public health through best practices. Expected in the spring.
- 2. Management** - open to anyone working with solid waste, to learn all about managing solid waste to protect public health. Expected in the summer.
- 3. Planning** - Learn about how to make a comprehensive and appropriate solid waste management plan and start developing one for your community. Expected in the fall.

3-Days Each | Dates TBD
