OUR VISION

By 2023 we will excel in tribally-governed health care delivery systems globally.

- **We will ensure all people receive quality and respectful health care.**
- **We will educate people to be proactive in caring for themselves and promoting wellness.**
- **We will listen to, honor, and respect our elders, preserve their right to speak, and ensure they receive the best care in gratitude for their leadership.**
- **We will increase wellness to reduce addictive behaviors and to raise the quality of life among our people and communities.**
- **We will advocate that our environment (air, land and water) will be clean, and our water and waste disposal systems are safe and affordable in order to ensure our subsistence way of life.**
- **We will assert and implement our tribal self-governance to achieve our vision through effective leadership.**
- **We will hire and support our tribal members to deliver and manage our services.**
- **We will develop state of the art and efficient healthcare facilities throughout the region.**
- **We will be financially strong through aggressive, effective and efficient financial management.**
- **We will support and develop our youth to pursue higher education and healthcare careers to ensure there is future tribal leadership.**
